The dates are correct this week... these wretched calendars with all those numbers!!!

Shed Security

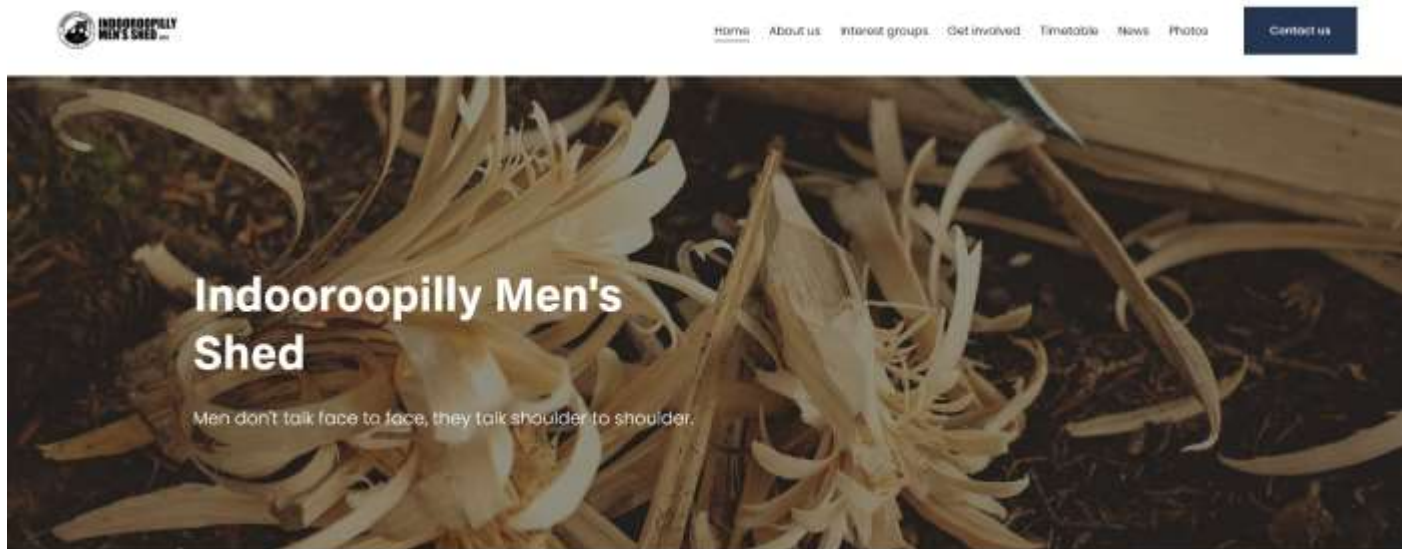

Here is the deal: The last person out of the shed at the end of the day makes certain all the lights and A/C are turned OFF *and* the door is closed AND LOCKED.

Don't just look at the door as you scoot away, grab the handle and give it a pull. I'm talking about the DOOR HANDLE, not that other flaccid thing.

The shed has been left unlocked overnight several times recently, luckily nothing has been stolen... yet. Don't be "*that guy*" who left the shed unlocked.

Do your part in maintaining the Shed's security.

Website

Joe Sultana and the volunteer web designer have been hard at work and launched the new website. The site is a new modern looking design which contains all the information from the previous website plus more, including being able to click into previous Newsletters.

Discussion Group

The discussion topic has expanded a little bit, it is now "The troubles in the Middle East". What effect will this have on the world in general and Australia in particular.

Request

As some of you have noticed I have been boring everyone s****less with my attempts to build a four Rookie chairs.

I am starting to have some mixed success with the chairs. Sometime in the future I am going to need some bags to put them in. I am hoping that you, my fellow members, may have some bags that outlived the collapsible chairs they came with.

I will need at least four. Please check the back of your garages. I wish you luck.

Chris Walker.

Bike Group

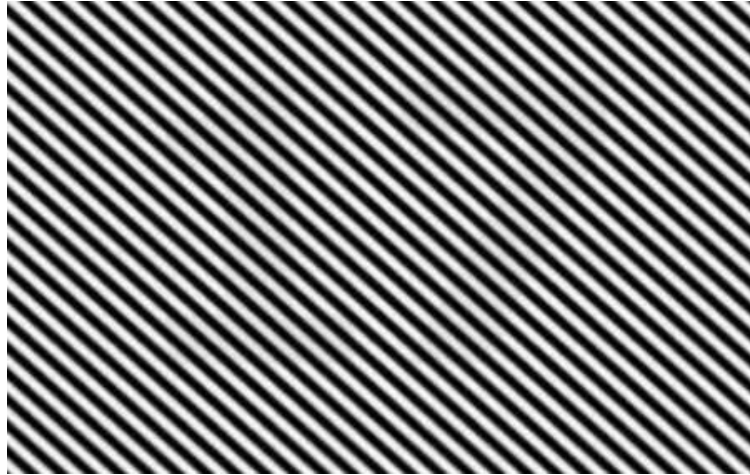

Robin has been leading the R&D Team in developing a new product line that will drastically reduce the amount of workshop space they need.

Robin can also generate some additional revenue for the Shed by working the crowd.

Insignificant Astro News

People don't realize how big stars can get. The sun is above the letter "u" in the bottom left. Zoom in.

And finally for this week

And now for a little wit and wisdom...

Most people are shocked when they find out...
...how incompetent I am as an electrician.

I was attacked by a flock of sheep and sent to the hospital
Luckily, I was only grazed

The local drug dealer started dressing up as a Jehovah's Witness so he would not arouse
suspicions. However, the police arrested him after they saw people letting him into their homes.

I don't wanna go into detail...
but the Dyson ball cleaner is a very misleading product name...

I found \$50 laying in the parking lot and thought to myself "What would Jesus do?"
So, I turned it into wine.

Just been to the gym because they have a new machine in.
Only used it for half an hour as I started to feel sick.
It's great, though. It does everything - KitKats, Mars bars, Snickers, Chips, the lot.

Not to brag, but I just was hired as a fitness model.
They used me as the "before" picture.

Lance isn't a real common name these days,
but in medieval times, people were named Lance a lot.

Does refusing to go to the gym count as resistance training?
Asking for a friend.

I just read that someone in New York gets stabbed every 52 seconds.
Poor guy.

I just bought a thesaurus and when I got it home, all the pages were blank.
I have no words to describe how angry I am.

I know a woman who is a battery vendor at the playground.
She sells C cells by the seesaw.

My wife was telling me I am of average intelligence.
Now that is just mean.

Today I started an argument with my wife while riding in an elevator.
I was wrong on so many levels.

Since this storm started my husband hasn't stopped looking through the window...
If it gets any worse I'll have to let him in.

My wife said, "Why don't you write a book instead of your stupid word play jokes?"
I said, "That's...a novel idea."

Me: Please bring me a screwdriver.
Wife: Flat head, Phillips, or Vodka?
...And that was when I knew she was the one.

So I was in a shoe shop this morning trying on a shoe, I said to the assistant "It's too tight".
She said, "Try it with the tongue out".
I said, "It'th nho ghoo, it'th thtill thoo thight".
